100 Glenn Dr., Suite A-5, Sterling, VA 20164*

Portals Hardware has operated for over two decades with a steadfast commitment to offering exceptional hardware designs. Our products seamlessly integrate with your bathroom's overall aesthetic, creating harmony through thoughtful design elements and premium finishes.

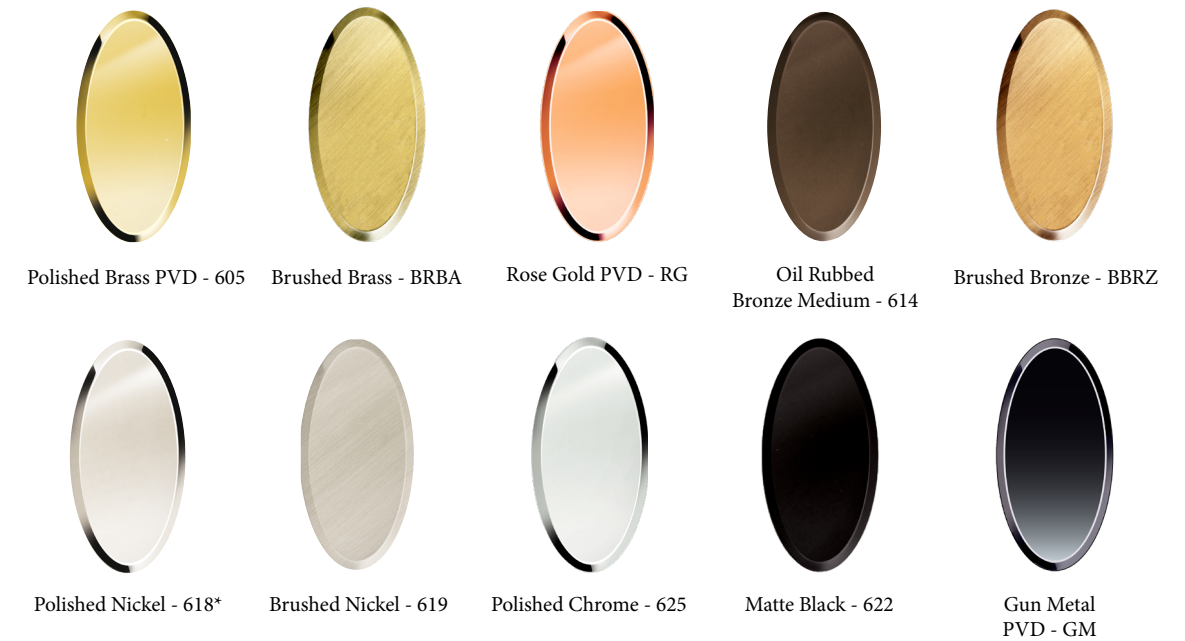

Each Portals product represents the perfect marriage of form and function—where premium materials meet innovative engineering.

With our continued expansion into new product categories, we continue a tradition of excellence, bringing our distinctive design philosophy to every corner of your bathroom sanctuary.

At Portals, we believe hardware isn't merely functional—it's where exceptional quality, innovative design, and timeless beauty can unite to transform your space.

Stocked Finishes

Our wide array of stocked finishes resist tarnishing*, corrosion, and the daily wear that would quickly degrade standard residential-grade finishes. This means our hardware looks as good on day 1,000 as it did on installation day.

Please note that not all items are available in all finishes. Please see Suites for available stocked finishes.

**Polished nickel - an unlacquered and reactive finish - may discolor due to chemical reactions with environmental factors, especially without proper installation and maintenance.*

The Portals Commitment

Lifetime Warranty

Our ability to control the manufacturing process allows us to offer the strongest residential warranty in the industry.

Uncompromising Value

We specialize in crafting premium bathroom fixtures that deliver exceptional quality and sophisticated design at unmatched value.

Outstanding Service

Ordered today, shipped today. More than 95% of all orders placed before 3pm CST will ship the same day. Our team is always available to help you understand our products or help you determine what glass can do in your location.

Elevate Every Space with Custom Glass Shower Hardware

When your design demands more than standard solutions, we deliver the extraordinary.

As your premier partner for custom glass shower hardware, we can transform architectural visions into reality.

Whether you're crafting the signature bathrooms of a luxury resort, designing coherent aesthetics across hundreds of residential units, or creating memorable commercial environments, your hardware should amplify your design intent, not compromise it.

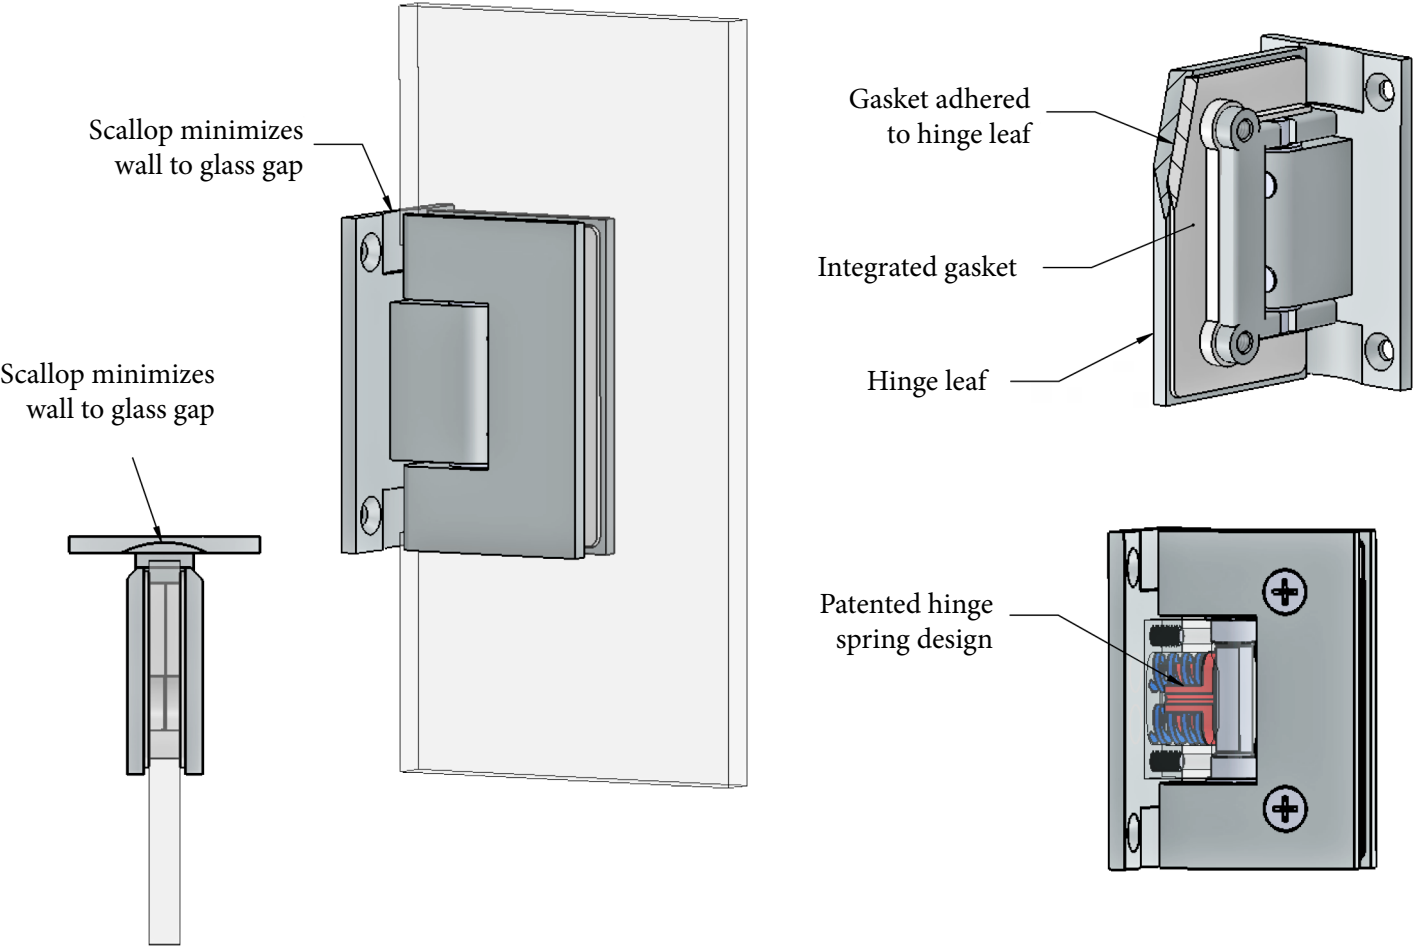

Custom bathroom hardware by Portals Hardware for the Conrad Hotel in New York, NY.

Custom bathroom hardware by Portals Hardware for the International Barclay in New York, NY.

shower
hardware can
elevate your
next project.

What Makes Portals' Hinges Unique?

Door Size Specifications for Portals Hinges

Hinge Specifications	Standard Duty		Heavy Duty		Ultra Heavy Duty	Standard Duty Pivot	Heavy Duty Pivot
	2 Hinges	3 Hinges	2 Hinges	3 Hinges	2 Hinges	2 Hinges	2 Hinges
Max. Door Width:	28"	32"	36"	36"	40"	32"	36"
Max. Door Weight*:	90 lbs.	120 lbs.	120 lbs.	150 lbs.	160 lbs.	110 lbs.	145 lbs.
Glass Thickness:	3/8" to 1/2"		3/8" to 1/2"		3/8" to 1/2"	3/8" to 1/2"	1/2"

*Glass Door Weight Formula

1. Determine Squared Inches (in²): Width x height = squared inches (in²)
2. Determine Squared Feet (ft²): in² ÷ 144 = ft²
3. Determine Door Weight: ft² x weight per ft² (see below) = glass door weight

Weight per ft²

3/8" glass = 5.05 lbs./sq.ft.
1/2" glass = 6.40 lbs./sq.ft

Caring for Your Hardware

Portals Hardware offers a lifetime warranty on most of our glass shower door hardware for residential use, covering defects in material and workmanship. Our retain their beauty for decades with proper installation, care and maintenance.

Shower Enclosure Care & Maintenance

Special care and precautions must be made in order to keep your shower enclosure looking as new as the day it was installed. It is recommended that you rinse and wipe down or squeegee after each use but this may not be a practical solution for most homeowners due to time constraints, etc.

In this case, it is recommended that you use a mild detergent and a soft cloth to clean the shower enclosure every 2-3 weeks. A solution of 50% vinegar and 50% water is a safe and effective solution for most residue left from hard water, humidity, soap and shampoo.

If you choose to use a commercial cleaning solution, please avoid any harsh or abrasive cleaners that may contain ammonia, bleach, oxide or acids or any self-cleaning products as these chemicals may compromise the integrity of the glass.

Glass is soft and porous
and can absorb harsh cleaners
which can result in a permanent
dirty or cloudy looking glass.

Shower Hardware Care & Maintenance

With the proper care and maintenance, your shower hardware can last the lifetime of your shower enclosure. A regular, thorough cleaning with soap and water is the most effective way to keep your hardware looking new.

Thoroughly wet the surface of the hardware and clean gently using a soft, clean sponge or cloth. Rinse with fresh, clean water and wipe dry with a soft clean cloth or a microfiber cloth.

Note: Please do not use any kind of harsh or abrasive chemical on the hardware or the finish may be permanently damaged.
